Expected impact of the project

The basic target group are researchers, besides administrative staff and members of Ethical Boards:

- improving the promotion procedures
- the average time of diploma recognition process will be reduced
- more transparent all job vacancies and other information important to researchers
- researchers' email databases will be established at each of the WBP universities
- university centres and offices dealing with researchers will be reinforced and improved through appropriate bylaws and some training seminars, organized by EU partners.

- Ethical Committees will be reinforced by making appropriate legislative changes and trainings which will be organized for EC members by EU experts
- Appropriate plagiarism monitoring tools will be installed for use by Ethical Committee members, supervisors, reviewers, etc.
- Cooperation with scientific diaspora will be improved through creation and expansion of Alumni networks
- Trainings of researchers on various subjects, at which about 5000 researchers will be trained by WBC and EU experts
- A pilot mentoring system will be introduced intended to aid the newly promoted assistant professors, and young researchers after completion of their PhD studies
- Guidebook in English with the purpose of providing young researchers with answers to many questions typically asked at this early stage of their careers

Trainings

- Training for the trainer by EU partners – best practices in HR strategies and policies
