Director of R&D Administration - Université de Liège
The Human Resources Strategy for Researchers (HRS4R)

Introduction
The Human Resources Strategy for Researchers

The ‘HR Strategy for Researchers’ supports research institutions and funding organisations in the implementation of the Charter & Code in their policies and practices. The concrete implementation of the Charter & Code by research institutions will render them more attractive to researchers looking for a new employer or for a host for their research project. Funding organisations implementing the Charter & Code principles will contribute to the attractiveness of their national research systems and to the attractiveness of the European Research Area more generally. The ‘HR Excellence in Research’ award, attained after a thorough analysis of an institutions HR policies is carried out, will identify the institutions and organisations as providers and supporters of a stimulating and favourable working environment for researchers.
BENEFITS FOR THE INSTITUTIONS

WHY

should institutions implement the C&C principles and continue the implementation of the HRS4R?

BECAUSE:

• it leads to benefits for researchers and the institution
• it potentially impacts the institution
• it adds credibility – internally and externally, national authorities, funders etc.
• it adds to the institution's reputation
• it contributes to the institution's visibility
• because of your participation in H2020 projects and contracts (article 32)
Horizon 2020 Grant Agreement(s) *

RECRUITMENT & WORKING CONDITIONS for researchers

32.1 OBLIGATION to take measures to implement the 'European Charter for Researchers and Code of Conduct for the Recruitment of Researchers' *
   - working conditions
   - transparent recruitment processes based on merit
   - career development

32.2 CONSEQUENCES of non-compliance
   (application of any of the measures described in Chapter 6)

All beneficiaries of H2020 should sign and implement the Charter & Code

EVIDENCED by:

> 900 individual endorsements & commitments
> 40 countries involved (& various Inter-national / European organisations)
> 1200 individual institutions represented (including universities, research institutes, funding bodies, umbrella organisations and professional associations)
HRS4R procedure

- Designing Gap Analysis & Draft Action Plan (T0)
- Assessing Gap Analysis & Action Plan (T1)
- Implementing Revised Action Plan (T3)
- Interim Assessment (T+6)
- Implementing Revised Action Plan Incorporating OTM-R Policy (T+9)
- Award Renewal Phase (T+12)
The INTERIM assessment

As soon as having been granted the ‘HR award’, institutions start implementing the actions foreseen in their action plan according to the proposed timeline throughout the next 24 months at the end of which the interim assessment is coming up.

The interim assessment is based on an internal review conducted by the institution and assessed by external experts.

Justifications should be given for altered actions and revised timelines, taking into account external circumstances that were not known at the time of establishing the initial action plan.
1. ORGANISATIONAL INFORMATION

Please provide an update of the line figures for your organisation. Figures marked * are compulsory.

<table>
<thead>
<tr>
<th>STAFF &amp; STUDENTS</th>
<th>FTE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total research = staff, fellows, students, junior, PhD, gastric/other (full-time or part-time loaded to research)</td>
<td>*</td>
</tr>
<tr>
<td>Q2 where are international (i.e., foreign national)</td>
<td>*</td>
</tr>
<tr>
<td>Q2 where are externally funded (i.e. for whom the organisation is host organisation)</td>
<td>*</td>
</tr>
<tr>
<td>Q2 where are students</td>
<td>*</td>
</tr>
<tr>
<td>Q2 where are students funded with a degree of autonomy, typically holding the status of Principal Investigator or Professor</td>
<td>*</td>
</tr>
<tr>

2. NARRATIVE (MAX. 2 PAGES)

Please consult the narrative on the strengths and weaknesses under the thematic area of the Charter and Code as provided in the initial submission of your organisation’s HR Strategy. How any of the priorities for the short- and medium-term shaping? How any of the circumstances in which your organisation operates, affects and enriches, how has your impact on HR strategy? Are any structural factors other that those that influence the action plan?

Please provide a brief commentary—not only looking back, but also looking forward.

3. ACTION

Please consult the list of actions you have submitted as part of your HR strategy. Please add to the overview the table below if you have not already done so. If any actions have been altered, cancelled or added, please provide a commentary for each action.

<table>
<thead>
<tr>
<th>Action</th>
<th>Responsibility</th>
<th>Impact</th>
<th>Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>E.g.</td>
<td>Director of Institute/Department</td>
<td>Increase in organisation</td>
<td>New strategy for new strategy</td>
</tr>
<tr>
<td>Action</td>
<td>Professor</td>
<td>Increase in organisation</td>
<td>No new strategy</td>
</tr>
</tbody>
</table>

Also, remember to include all additional strategies. To make sure that your ISR strategy is relevant, please also indicate how your organisation is working towards it. If you have developed an Open, Transparent and Multi-based Recruitment Policy, although there may be some overlap with a range of actions listed above, please provide a short commentary demonstrating this implementation.

In case your organisation has adhered to the ISR prior to the publication of the QMHR toolkit and recommendations by the European Commission (2015), please fill out the QMHR checklist, as it will be self-evaluation form, and provide a commentary on how you will continue to address these priorities in the years to come.

Comment on the implementation of Open, Transparent, Multi-based Recruitment principles.

4. IMPLEMENTATION (MAX. 1 PAGE)

Please provide an overview of the expected implementation process. You can use the following questions as a guideline in your description:

- How have you prepared the internal review? How have you involved the research community, your main stakeholders, in the implementation process?
- Do you have an implementation committee and/or steering group regularly overseeing progress?
- Is there any alignment of organisational policies with the HR5+? For example, is the HR5+ recognition in the organisation’s research strategy, overarching HR policy?
- How do you involve the research community, your main stakeholders, in the implementation process?
- How is your organisation ensuring that the proposed actions are also being implemented?
- How are you monitoring progress?
- How do you expect to prepare for the external review?

Please note that the planned strategy and actions must also be published upon completion of the internal assessment.
The Interim Assessment

1. Organisational Information

Please provide an update of the key figures for your organisation. Figures marked * are compulsory.

<table>
<thead>
<tr>
<th>STAFF &amp; STUDENTS</th>
<th>FTE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total researchers = staff, fellowship holders, bursary holders, PhD. students either full-time or part-time involved in research</td>
<td>*</td>
</tr>
<tr>
<td>Of whom are international (i.e. foreign nationality)</td>
<td>*</td>
</tr>
<tr>
<td>Of whom are externally funded (i.e. for whom the organisation is host organisation)</td>
<td>*</td>
</tr>
<tr>
<td>Of whom are women</td>
<td>*</td>
</tr>
<tr>
<td>Of whom are stage R5 or R6* = Researchers with a large degree of autonomy,</td>
<td>*</td>
</tr>
</tbody>
</table>

2. Narrative (max. 2 pages)

Please consult the narrative on the strengths and weaknesses under the 4 thematic areas of the Charter and Code as provided in the initial submission of your organisation’s HR Strategy. Have any of the priorities for the short- and medium-term changed? Have any of the circumstances in which your organisation operates, changed and as such have had an impact on your HR strategy? Are any strategic decisions under way that may influence the action plan?

Please provide a brief commentary – not only looking back, but also looking forward.

3. Actions

Please consult the list of all actions you have submitted as part of your HR strategy. Please add to the overview the current status of these actions, as well as the status of the indicators. If any actions have been altered, omitted or added, please provide a commentary for each action.

Examples:

<table>
<thead>
<tr>
<th>Title action</th>
<th>Timing</th>
<th>Responsible Unit</th>
<th>Indicator(s) / Target</th>
<th>Current status</th>
</tr>
</thead>
<tbody>
<tr>
<td>e.g. Advertising of researcher vacancies</td>
<td>Spring 2016</td>
<td>HR recruitment unit</td>
<td>75% increase in applications 50/500 applications from abroad</td>
<td>Completed</td>
</tr>
<tr>
<td>e.g. Granting postdoctoral researchers budgetary autonomy</td>
<td>December 2017</td>
<td>Finance Dept.</td>
<td>Board of Government endorsement for new regulation</td>
<td>In preparation</td>
</tr>
<tr>
<td>e.g. Improve supervisor training for newly appointed tenure track staff</td>
<td>Continuous</td>
<td>Doctoral Schools</td>
<td>Min. 2 training courses on offer per term Continuous monitoring of effect increase of positive evaluations from PhD students Mentor for every PhD supervisor with less than 3 years experience</td>
<td>Action extended by introducing a new mentoring programme for PhD supervisors, based on the PhD students’ feedback</td>
</tr>
</tbody>
</table>

4. Implementation (max. 1 page)

Please provide an overview of the expected implementation process. You can use the following questions as a guideline in your description:

- How have you prepared the internal review? How have you involved the research community, your main stakeholders, in the implementation process?
- Do you have an implementation committee and/or steering group regularly overseeing progress?
- Is there any alignment of organisational policies with the HRS4R? For example, is the HRS4R recognized in the organisation’s research strategy, overarching HR policy?
- How do you involve the research community, your main stakeholders, in the implementation process?
- How is your organisation ensuring that the proposed actions are also being implemented?
At this point of the interim assessment, the participating institution does not jeopardise maintaining the ‘HR award’, but receives detailed feed-back such as:

1. The institution receives an **encouragement** to continue along the path it has undertaken.

2. The institution is encouraged to undertake some **corrective actions** to improve an already sufficient performance.

3. The institution is **warned** that, unless it takes strong corrective actions, it seriously risks not progressing through the subsequent assessment and losing the right to use the ‘HR award’.
The Human Resources Strategy for Researchers (HRS4R)

Preparation of the visit
Within the next 3 years after the interim assessment, institutions implement and monitor their proposed actions according to the revised action plan incorporating feedback from the interim assessment.

After 3 years, the upcoming assessment then is conducted in 2 subsequent stages which are closely linked and timed:

- an **internal review** conducted by the institution and assessed by external experts, followed by
- **a site visit** to the institution.

\textsuperscript{1} Last update 2.2.2018

\textsuperscript{2} During the transition period special conditions apply: Institutions avoiding the MDSR implementation prior to the publication of the OTM-R Toolkit and recommendations by the European Commission (2015) may face prioritised actions implementing the OTM-R principles yet. In this case, they should not be recommended but strong recommendations should be made to address these principles appropriately.

1B. Site Visit assessment (to be completed jointly by the assessors after the site visit)

Please provide a brief answer to the following questions:

1. Does the site visit confirm the impression made by the written self-evaluation report?

2. What have been the benefits of implementing an HR Strategy in the organisation under review? How do you judge its overall impact and achievements?

3. How do you judge the organisation’s level of ambition and engagement in its HR strategy for researchers, taking into account the initial state of play?

4. How do you judge the organisation’s efforts to ensure the implementation of the Charter and Code principles regarding the Ethical and Professional Aspects of Researchers?

5. How do you judge the organisation’s efforts to ensure the implementation of the Charter and Code principles regarding the Recruitment of Researchers in its OTM-R policy in place?

6. How do you judge the organisation’s efforts to ensure the implementation of the Charter and Code principles regarding Researchers’ Working Conditions and Social Security?

7. How do you judge the organisation’s efforts to ensure the implementation of the Charter and Code principles regarding Researchers’ Development and Training?

Please list one or more elements of good practice that you would recommend to other organisations – either in terms of action or in terms of coordination/process.
The purpose of this **two-stage assessment** is double:

1. It allows the participating institution to **reflect and document progress** and **alter actions or timing of actions if necessary** and it allows the institution the **opportunity to create new actions** for the upcoming time horizon.

2. It gives the **opportunity to the institution and the experts** to engage on aspects of their work.
When preparing for the two-stage assessment, initially proposed actions can be altered and the timeline be revised in the light of the feasibility of implementation and taking into account external circumstances that were not known at the time of revising the action plan.

Such alterations are to be included together with their justification when establishing the necessary documentation to be submitted for the institution’s internal review which will be assessed by external experts as a preparation for the site visits.
At this stage, **progress and quality of the actions and accompanying measures** (such as embedding the HRS4R process for example) **are assessed by the experts**.

In preparation for this assessment, the institution must submit to the relevant authority an **internal review of how its action plan has been implemented**; this review must include **a revised action plan including proposed actions for the next 3 years**.
A successful internal review and experts’ assessment during the site visits allow the participating institution to retain the ‘HR award’.

Once the institution receives positive feedback, it enters immediately into the award renewal phase occurring 36 months later (i.e. five years after the granting of the initial ‘HR award’).
At this stage, progress and quality of the actions and accompanying measures (such as embedding the HRS4R process for example) are assessed by the experts.

Experts undertake a quality assessment, assessing the level of ambition and the quality of progress intended and obtained by the institution.

This assessment leads to 3 individual preliminary assessment reports which will be shared among the experts at least one month in advance of the site visit.
ANNEX 3 - THE INTERNAL REVIEW

1. How to conduct the internal review

The purpose of an internal review, be it during the implementation phase or the reward renewal phase, is to allow the participating institutions to reflect and document progress and alter actions or timing of actions if necessary and to offer the opportunity to create new actions for the upcoming years.

The internal review is conducted by the institutions at the following stages:
- 24 months after the granting of the ‘HR award’ (interim assessment)
- every 3 years when having reached the award renewal phase(s) (1st part of the award renewal phases)

1.1. the internal review in view of the interim assessment

When preparing the internal review in view of the interim assessment, the institutions should indicate how its Action Plan has been implemented. The institution must include a revised Action Plan including proposed actions for the next 3 years.

The interim assessment reflects the quality of the institution’s implementation of the C&C and associated developments and progress, such as fully integrating the HRS4R process within the institution.

Recommendations from the interim assessment fall under one of the 3 categories:

a) The institution is progressing with appropriate and improved quality actions as described in its Action Plan. There is evidence that the HRS4R is further embedded into the institution’s policies, routines, and organisational structures. Therefore, the institution receives an encouragement to continue along the path it has undertaken.

b) The institution is, for the most part, progressing with appropriate and quality actions as described in its Action Plan, but could benefit from alterations as advised through the Assessment process. There is some evidence that the HRS4R is further embedded into the institution’s policies, routines, and organisational structures. Therefore, the institution is encouraged to undertake some ‘corrective actions’ to improve an already sufficient performance.

c) The institution is not deemed to be implementing appropriate and quality actions and this raises some concern for the future efforts to implement actions closely aligned to the Charter and Code. There is a lack of evidence that the HRS4R is further embedded into the institution’s policies, routines, and organisational structures. Therefore, the institution is warned that, unless it takes strong corrective actions, it seriously risks not progressing through the subsequent assessment and losing the right to use the ‘HR award’.

At the Interim Assessment, the participating institution does not jeopardise maintaining the ‘HR award’, but a sound feedback from the assessment will be issued with recommendations for the next future.

1.2. the internal review in view of the award renewal

When preparing the internal review documents in view of the award renewal phase(s), the institutions should elaborate on how their revised action plans were implemented and propose new actions which are to fill the still existing gaps as well as the timing of such actions.

Progress and quality processes of the actions and accompanying measures (such as embedding the HRS4R process for example) should be highlighted since they will be explicitly assessed.

The underlying quality processes must be supported by evidence of better quality outcomes. The assessment (2nd part of the award renewal phase) is intended to provide an appraisal of this quality improvement.

2. How to fill the template for the internal review

The use of template 3 (internal review) is mandatory for the submission of the institution’s documentation for either the interim assessment (during implementation phase) or the internal review every 3 years when having reached the award renewal phase(s).

This template is structured in a similar way as the action plan initially requested/proposed and consists of 4 parts:

1. organisation information

Institutions should then provide an update of the key figures for their institution.

Particular attention should be paid to issues related to OTM-R by institutions already advanced in the HRS4R implementation process. These institutions may not yet have prioritised actions implementing the principles of OTM-R yet, but should take immediate action to comply with the new requirements.

2. a narrative

Based on the initial narrative on strengths and weaknesses under the 4 thematic areas C&C, an updated version covering the following questions should be delivered:
- Have any of the priorities for the short and medium term changed?
- Have any of the circumstances in which your organisation operates, changed and as such have had an impact on your HR strategy?
- Are any strategic decisions under way that may influence the action plan?

A brief comment should be provided – not only looking back, but also looking forward.

3. action list

In the institutions’ previously provided list of strategic HR actions’ overview part, the current status of the initially proposed actions as well as the status of the indicators should be indicated.

If actions have been altered, omitted or added, a comment for each of these actions is needed.

As the establishment of an Open Recruitment Policy is a key element in the HRS4R strategy, institutions should also indicate how the organisation is working towards it and has developed an Open, Transparent and Merit-Based Recruitment Policy. Although there may be some overlap with a range of actions listed above, a short commentary demonstrating this implementation should be provided.

In case the institution has already entered the HRS4R process prior to the publication of the OTM-R toolkit and recommendations by the European Commission (2018), please fill out the OTM-R checklist, attach it to this self-evaluation form, and provide a commentary on how you will (continue to) address these principles in the years to come.

4. Implementation

Institutions should provide an overview of the expected implementation process along the following lines:
- How has your institution prepared the internal review?
- Do you have an implementation committee and/or steering group regularly overseeing progress?
- Is there any alignment of organisational policies with the HRS4R? For example, is the HRS4R recognized in the organisation’s research strategy, overarching HR policy?
- How have you involved the research community, your main stakeholders, in the implementation process?
- How is your organisation ensuring that the proposed actions are also being implemented?
- How are you monitoring progress?
- How do you expect to prepare for the external review?

The OTM-R checklist can be downloaded from the EURAXESS website: http://ec.europa.eu/euraxess/
Assessing the internal review (after 36 months)

changes. When these are implemented and positively assessed under a new assessment the HR award is granted.

Applicant institutions will receive these comments from the experts as a structured feed-back together with the recommendation whether they should should or not receive the HR award or be given the opportunity to undertake minor changes and be encouraged for re-submission. Institutions should seriously take into account the comments of the experts for all future steps and actions.

At this stage they might also issue a warning in case the institution is not deemed to sufficiently progress or if there is a lack of evidence.

The outcome of this assessment will fall under 1 of 3 headings:

1. The institution is progressing with appropriate and improved quality actions as described in its Action Plan. There is evidence that the HR&SAR is further embedded into the institution’s policies, routines and organisational structures. Therefore, the institution receives an encouraging to continue along the path it has undertaken.

2. The institution is, for the most part, progressing with appropriate and quality actions as described in its Action Plan, but could benefit from alterations as advised through the Assessment process. There is some evidence that the HR&SAR is further embedded into the institution’s policies, routines and organisational structures. Therefore, the institution is encouraged to undertake some corrective actions to improve an already sufficient performance.

3. The institution is not deemed to be implementing appropriate and quality actions and this raises some concern for the future efforts to implement actions closely aligned to the Charter and Code.

At this point, the participating institution does not jeopardise maintaining the HR award.

b) The internal review (after 36 months)

The assessment of the internal review will be followed in a timely manner by the organisation of a site visit to the applicant institution. Experts undertake a quality assessment, assessing the level of ambition and the quality of progress intended and obtained by the institution.

This assessment leads to 3 individual preliminary assessment reports which will be shared among the experts at least one month in advance of the site visit. Experts meet to discuss and plan the approach to and target of the discussions during the site visit the day before the visit (if practicable) or by conference call/ Skype a few days before the 1 day-site visit.

c) The site visit

During the site visit, the group of experts must meet key stakeholders including researchers, management and practitioners to discuss, confidentially the issues and questions that may arise after analysis of the internal review documents submitted by the institution.
During the site visit, the group of experts must meet key stakeholders including:

- Researchers
- Practitioners
- Management

To discuss confidentially the issues and questions they might have after analysis of the internal review documents submitted by the institution.
Preparation of the visit

➢ Communication with the European Commission
➢ Communication with the assessors' team for establishing:
  ❖ The agenda, including:
    ✓ meeting with the management
    ✓ meeting with the **administrative staff members** involved in the process (HR department, Research Office etc. ...)
    ✓ separate face to face meetings with **selected staff from different faculties/disciplines, with different level of experience and different responsabilities** (please consider **gender balance**):
      ❑ academic staff
      ❑ researchers
      ❑ PhD researchers
      ❑ young post-docs
    ✓ meetings with the **steering group/working group/HRS4R manager**
  ❖ Documents to be prepared
  ❖ Organisational issues
Checklist for Institutions

1. As soon as the internal review documentation is submitted using Template 3:
   - The European Commission will initiate contact between the lead expert and the Institution and will ask the Institution to **identify a staff member who will serve as liaison** with the lead expert.
   - **The date** of the site visit will be finalised between the experts and the institution liaison usually 3 months but not later than 4 months following the institution’s submission of the internal review documents for the **award renewal phase** to the European Commission.
   - **Once the date is set** and agreed between the institution and the experts it is officially communicated to the European Commission **by the lead expert**.
   - **Block out time on your senior leaders’ schedules** and of the people involved in the management of the HRS4R process within the institution. Typically, the senior leaders will need to be available for up to a one-hour opening meeting (inclusive of 1/2 hour presentation) on the day of the site visit and a one-hour wind-up discussion at the end of the site visit.
Checklist for Institutions

2. As soon as your site visit date is set:

- Make sure your senior leaders are present and aware of what you and your colleagues did throughout the last years and what the HR strategy is about, tell them about the difference it made to the institution and the impact it has as well as the need to continue to guarantee their full support. Your leaders should be present in the opening and closing meetings.

- Communicate to your employees what they can expect during the site visit.

- **Plan how and when you will communicate to your organization** about the site visit. Typical topics include site visit dates, why the HRS4R International External Experts are coming to the organization, what your organization expects to get out of the experience, and what individual researchers and groups can expect during the site visit. Specific communication (and training), activities should be planned to address different target groups: the whole community, the institutional leaders, the researchers and staff that will participate in face-to-face interviews.

- Start **assembling the information** you will need to bring to the meeting (see section 3 below).

- **The site visit will be held in English. If a translator to local language is required then this must be provided and financed by the institution.** The need to use a translator will in no case be considered negatively, being a tool to allow better communication and wider involvement.
Checklist for Institutions

- Start designing your **half-hour presentation** to the Expert team for the opening meeting of the site visit. This should address who you are and what you do as an organization, why you are participating in the HRS4R process, progress so far under Ethical and Professional Aspects, OTM-R, Working Conditions and Training and Development and how your organization hopes to improve and evolve its service to researchers from continuing with the HRS4R process. Include in your **half-hour presentation** information related to **indicators for progress/quality**. Elements of quality such as quality of progress and quality of achievements should be highlighted. Indicate the breath, depth and integration of HRS4R within your organisation/institution. This will be evidenced through such indicators as the level of ambition, embedding and the quality of progress. Please take care to give an interesting and short presentation and please do not repeat every detail from your revised HRS4R action plan.

- Start identifying the members of the institution for **face-to-face interviews** with the Expert team (e.g. people involved in the management of the HRS4R process, staff responsible for implementing actions, researchers representing the different research positions at different level -R1 to R4-)

- invite external stakeholders (if needed and/or involved/consulted in the process)
Checklist for Institutions

3. Provide the following information to the HRS4R site visit Expert team 2 months before the site visit:

A. **Organizational information**, including:
   - The current Institutional Strategic Plan (if one exists, in English if that exists).
   - A current detailed organization chart.
   - A list of key stakeholders - people, leaders, committee members, and others - who have been involved with and have contributed to the HRS4R process of self-assessment submitted to the European Commission.

B. **Facilities information**, including:
   - Map(s) showing the location(s) of meetings and a point of contact email address and mobile phone number.

C. **Logistical information**, including:
   - Detailed **draft** agenda for the day which will be agreed between the institution and the lead expert
   - Demographics of research employees within the organization (numbers, role title etc.)

D. **Other logistical information** you feel is important for the External experts to know.
4. Before the start of the site visit, you will need to make the following preparations and prepare the following information:

- Reserve a private meeting room for the exclusive use of the assessment team during the site visit. If the Experts will be visiting more than one site, a meeting room at each site is desirable, depending on how much time the Experts spend there.

- Arrange to have on hand all documents and reports mentioned in the self-assessment narrative at the start of the site visit (one copy only). It is most helpful to the Experts if this is in one central location (e.g., their meeting room). If Experts will be visiting more than one site, duplicate copies are not necessary at each site.

- Arrange for beverages/snacks and meals for the assessment team while they’re on site.

- Arrange for the assessment team to have access to internet, wifi, copiers, printers, and telephones.

- Reserve a conference/meeting room at your site for the opening and closing meetings. It is helpful to have a projector and screen available.

- Reserve additional meeting spaces for interviews as needed. (For example, interview space might be needed for individual or group interviews.)
Checklist for Institutions

- If your facilities require visitors to be escorted or are difficult to navigate, arrange for escorts to take Experts to their interviews.

- Make final preparations for your one-half hour presentation to the assessment team during the opening meeting.

- Before the team arrives on site, review the site visit schedule with the Expert team leader.

- Update any information submitted in your internal review report (if applicable). The documentation will need to be ready when the team arrives on site. (One copy only)
Financial issues:

Regarding the costs, the European Commission will take care of travel and accommodation of the external experts.

Institutions are required to organise and cover the costs of beverages/snacks and meals for the expert team while they’re on site.
Checklist for Institutions

For Note – The Agenda

- The agenda will be finalised between the institution and the external experts through the lead expert 3 weeks prior to the visit.
- Following each meeting the experts will require 15 minutes for private/reserved discussion.
- The final meeting will be a half hour and the experts will then relay their findings verbally to the institution (on the day of the site visit) with the consensus report to follow.
The Human Resources Strategy for Researchers (HRS4R)

The HRS4R site visit
The site visit

During the site visits experts need to:

• be able to **confirm the impression** they gained during their desk based assessment;

• evidence **benefits of implementing the HR strategy** in the institution;

• judge the **level of ambition** with regard to the HR strategy for researchers, taking into account the initial state of play;

• judge the institution’s efforts to ensure the C&C principles regarding **ethical & professional aspects**;
During the site visits experts need to:

• evidence the institution’s effort to put an **OTM-R policy** in place;

• check if the C&C principles regarding researcher’s **working conditions and social security** are implemented;

• judge the efforts regarding the C&C principles on researcher’s development and training.

The Human Resources Strategy for Researchers (HRS4R)

Follow up
After the discussions on the site, the panel organises its debriefing session either in person (if practicable) or by conference call/Skype to reflect on and to discuss the site visit in order to come up with a commonly agreed consensus report.

This report will also contain:

• **elements of good practice** the experts would recommend to other institutions and

• **examples of difficulties** the institution had to deal with during set-up or implementation.
Finally, on the basis of the information submitted and the site visit, and taking into account the institution’s national research context, the experts will assess the HR strategy’s strengths and weaknesses.

If relevant, they will provide suggestions for alteration or revisions to the (updated) strategy.
Follow up

Feed-back to the institution is given via the commonly agreed consensus report wherein one of the 3 possible options is recommended:

1. **ACCEPTED**
   The institution is progressing with appropriate and improved good quality actions as described in its Action Plan. There is evidence that the HRS4R is further embedded into the institution’s policies, practices and organisational structures.

2. **ACCEPTED pending minor alterations**
   The institution is, for the most part, progressing with appropriate and quality actions as described in its Action Plan, but could benefit from alterations as advised through the assessment process. There is some evidence that the HRS4R is further embedded into the institution’s policies, practices and organisational structures.

3. **NO FURTHER USE PERMITTED pending (major) revisions**
   The institution is not deemed to be implementing appropriate and quality actions and this raises some concern for the future efforts to implement actions closely aligned to the Charter and Code. There is a lack of evidence that the HRS4R is further embedded into the institution’s policies, practices and organisational structures.

Maintaining or not the ‘HR award’ relies on the judgement of the experts who inform the Commission services on their decision.
The Human Resources Strategy for Researchers (HRS4R)

AWARD RENEWAL PHASE(S)
AWARD RENEWAL PHASE(S) – desk based assessment and site visits
Three years after the successful assessment and site visits by the external experts, institutions must submit to the relevant authority an internal review of how their Action Plan has progressed and gained in quality.

At this stage the internal review must be comprehensive in its scope and must show that a broad range of stakeholders within the institution, including researchers, has participated in its preparation.
This review must address:

- **progress** against and quality of proposed actions, indicators and targets for success;

- an **overview of progress** against the Charter & Code Themes, **evidence of how the HRS4R process has been embedded** into the institutional policy.
The publication of this review in form of an updated HR strategy on the institution’s website must include a dedicated section on the evolution of the institution’s recruitment policy (OTM-R ‘open, transparent and merit-based recruitment’).

A toolkit for the implementation is available on the EURAXESS website: http://ec.europa.eu/euraxess/.

This internal review documentation is assessed by a panel of independent external experts through a desk based assessment, followed again by a site visit to the institution.
1. A successful internal review and experts’ assessment allows the participating institution to retain the ‘HR award’.

2. In cases where the quality and appropriateness of the actions are deemed to be less than satisfactory, and/or where the implementation of the HRS4R is deemed not to be broad, deep and well integrated into in the institution, continued use of the ‘HR award’ will not be permitted. As such, the use of the ‘HR award’ icon will In this case no longer be activated on the EURAXESS job portal, the institution can re-apply for a desk-based assessment and site visit after a minimum of 3 years based on a revised Gap Analysis and Action Plan.
Institutions having successfully undergone the HR award renewal phase now enter into 3-year cycles of monitoring continuous improvement and assessment wherein the move from progress to quality needs to be evidenced.

At the end of each cycle, the HR award can be renewed or not, subject to a process of internal organisational review accompanied by experts’ assessment and site visit.

Once the award is renewed, institutions update their website and implement and monitor proposed actions. This cyclic HR award renewal should bring out continued progress in the actions as well as a move towards enhanced quality of the actions.
At this stage, the institutions should have a well-running and fully compliant OTM-R policy in place and make full use of it.
